TIVER
table extension

RAMTI
table connector

TARAM
tray support

Available at
our retail partners

TIVER
table extension

TIVER ≪
*The ideal solution for
enlarging the tabletop*

Table extensions attached
absolutely horizontally

Fitting for table extension

• easy installation
• thin, compact profile
• anodized aluminium surface
• aesthetic design

Plug-in and screw-on fitting

• very stable design
• star knob screw for fixation
• simple retroactive extension

RAMTI
table connector

RAMTI ≪
*The quick and easy solution
for table combinations*

Detail dimensions

## Table top connector

• safe and high load-bearing connection
• tool-less, one person assembly
• ideal use for insertion plates
Insertion plate
between two tables

Functionality

TARAM
tray support

TARAM ≪
*The carrier for lightweight walls
or challenging masonry*

Detail dimensions

• compact dimensions
• inclination adjustable by turning

Tray support on suspension rail

• multiple screw connection for perfect support
• easy and time-saving installation
• continous adjustment of the fitting
• possible to put several brackets on one rail

Suspension rails made of aluminium

• easily shortened to required length
• standard length: 80 cm
• standard length: 192.5 cm
• pre-drilled rail for simple wall mounting
Rail length: 80 cm / 192.5 cm

DÜBELKLEMME
gluing aid

NEW

DÜBELKLEMME ≪
*Tool-free for the DIY industry
and with only 1 second pressing time for
efficient mass production*

Functionality

from corpus thickness 16 mm

Corpus glueing:

• without cabinet clamp
• without screw clamp

• almost tool-free assembly
• saves time and energy
• ideal for self-assembly furniture industry

Cabinets are glued together without a cabinet
press or clamps. Assembly is carried out as
usual with wooden dowels, with an additional
DÜBELKLEMME being used for every 2nd or
3rd dowel to bridge the curing time of the glue.

**No clamps
necessary!**
